

# EUROPEAN 4 IN 1

European 4 in 1 is one of the easiest chain mail weaves and can be used for all kinds of purposes.

The first step is to open one ring (blue), and put 4 closed rings on it (red). Then close the blue ring. Repeat this until you have a number of these sets.

## STEP 01

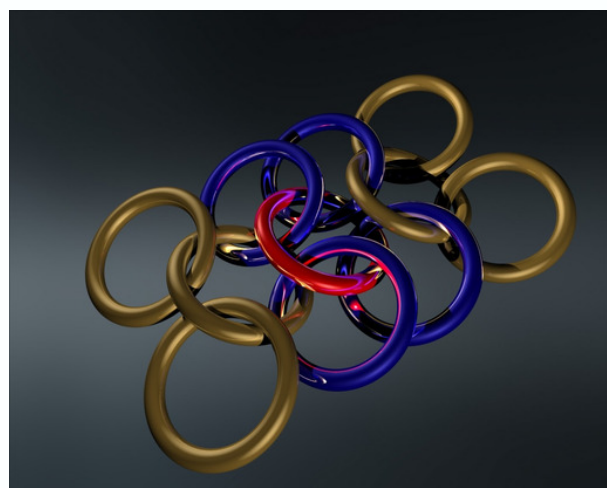

Once you have enough sets of five, lay two of them in front of you. Lay them both flat, with the top two rings on one set (blue) laying on top of the bottom two rings of the second set (red).

## STEP 02

Open a ring (red) and put it through the eyes formed by the overlapping rings (blue), then close it. Keep doing this, connecting an extra set of five each time, until you have the length that you desire.

## STEP 03

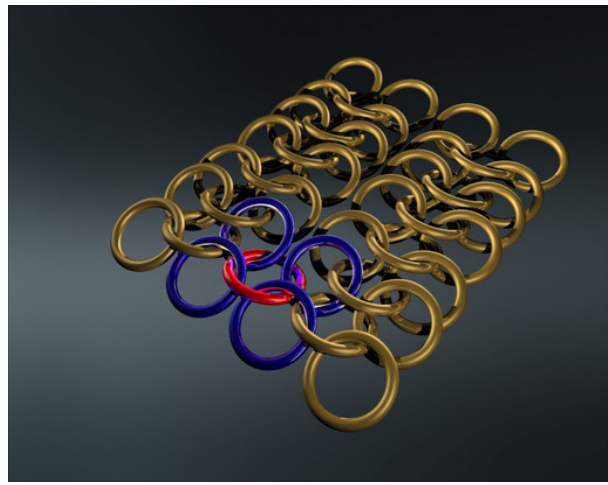

## STEP 04

This is what a single strand of European 4 in 1 looks like.

To connect strands together, lay two strands parallel next to each other with rings facing the same way.

## STEP 06

Next, put a ring (red) through 4 other rings (blue), like so.

Then continue putting rings (red) all the way along.
